

CORPORATE PROFILE

FORTUNE GENERAL INSURANCE CORPORATION or **FGen Insurance** is a non-life insurance company with 66 years of experience in serving the risk management needs of Filipinos.

Our company exists to provide effective and innovative risk transfer tools and cost-effective products. We are committed to excellence, and we want to serve as a role model in the industry as we strive to achieve and sustain the social and economic advantages of our clients, intermediaries, personnel and shareholders.

We want to become and remain the insurer of choice of the new generation.

OUR BEGINNINGS

Incorporated in June 13, 1955 as Mutual Security Insurance Corporation, our company was made part of the ALC Group in November 1986. Ambassador Antonio Cabangon-Chua acquired the majority share of the company and changed its name to Fortune Guarantee and Insurance Corporation.

The ALC Group also owned another non-life insurance company known as Citystate Insurance Corporation. It was a venture with British, Singaporean, and American partners, notable of which were the Leow family and their Citystate Group and Liberty International of the US (a Fortune 500 Company). It was in 2002 that Ambassador Cabangon-Chua bought the majority share in Citystate Insurance and gained control of two non-life insurance companies, which he eventually merged into one company.

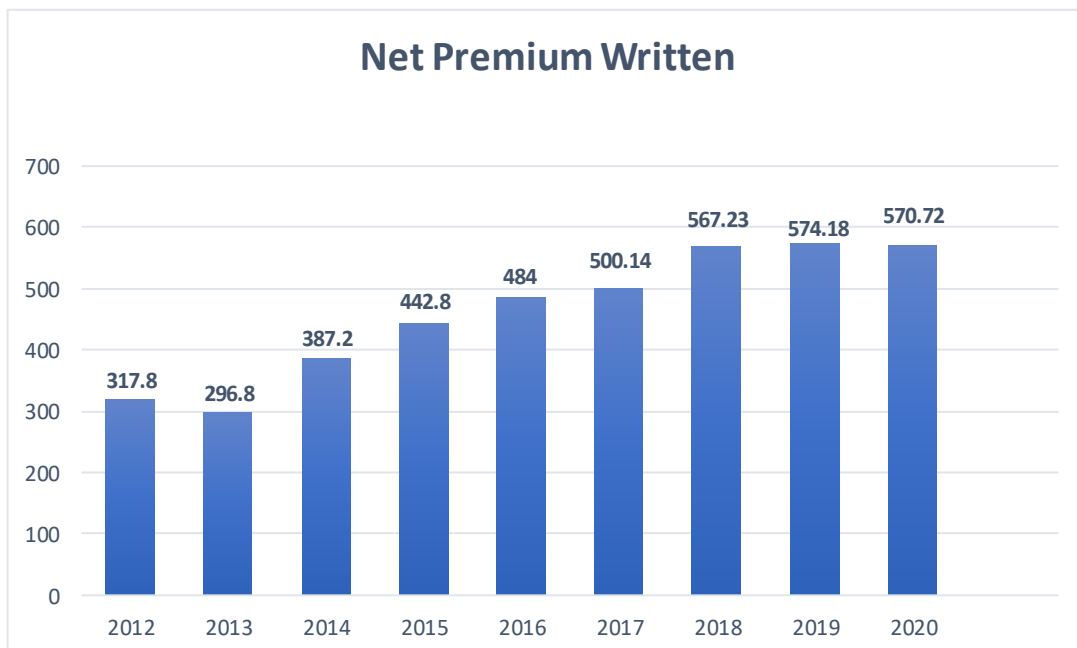

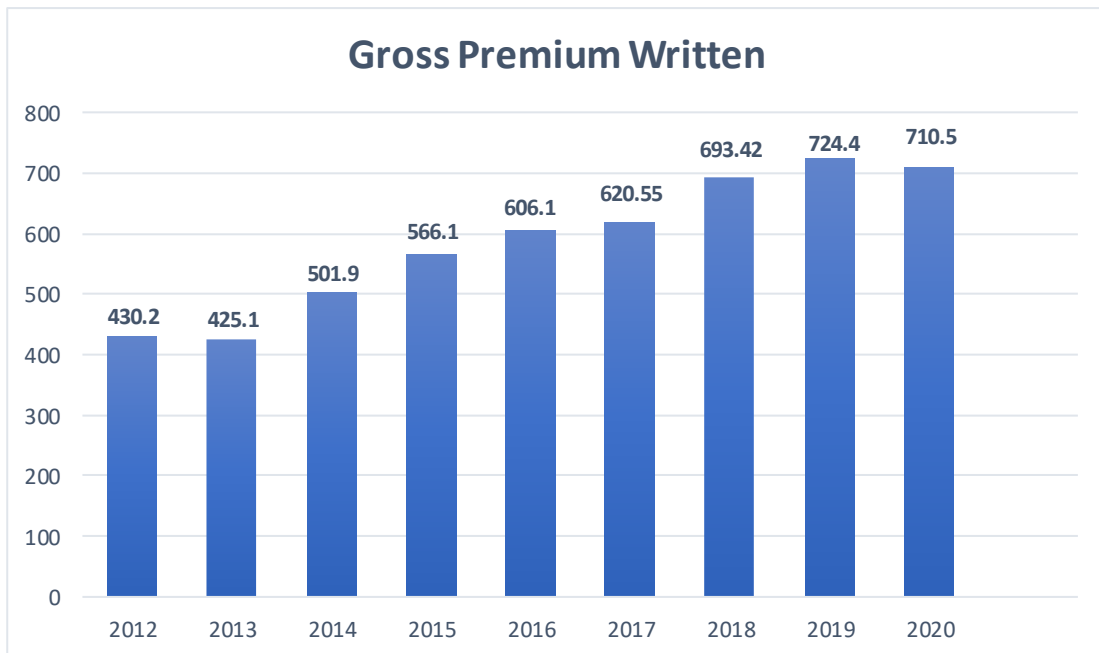

On July 10, 2003, the Securities and Exchange Commission gave its approval for the merger, with Fortune Guarantee as the surviving entity. The merger brought about a company with P300 million in paid-up capital, with over P500 million in total assets and which potentially could generate P300 million in Gross Premiums Written.

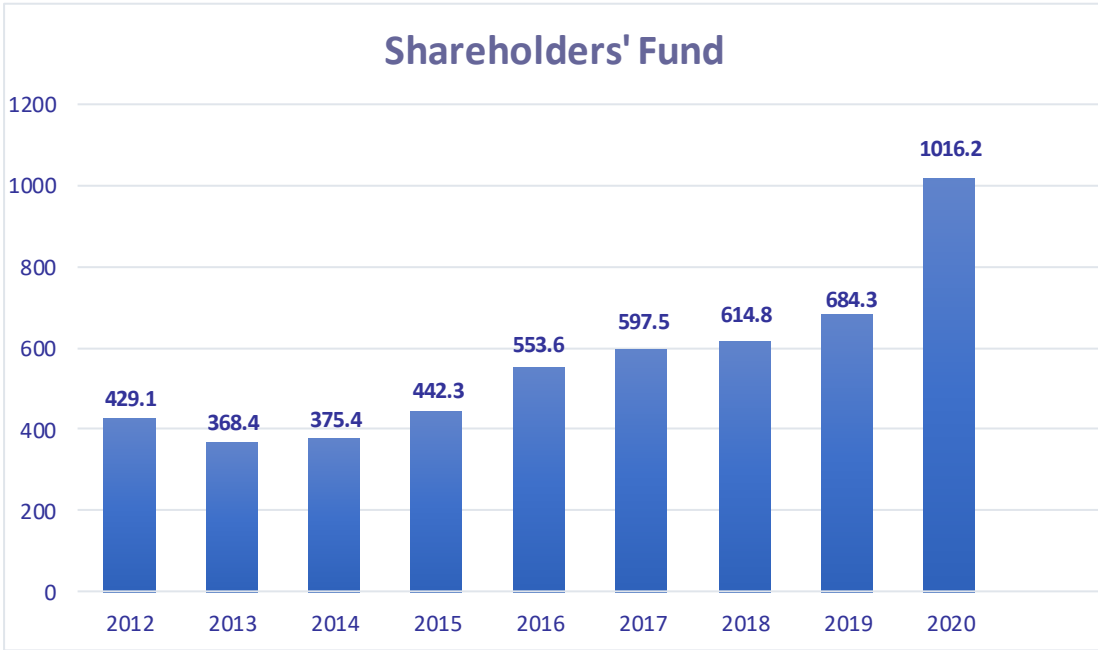

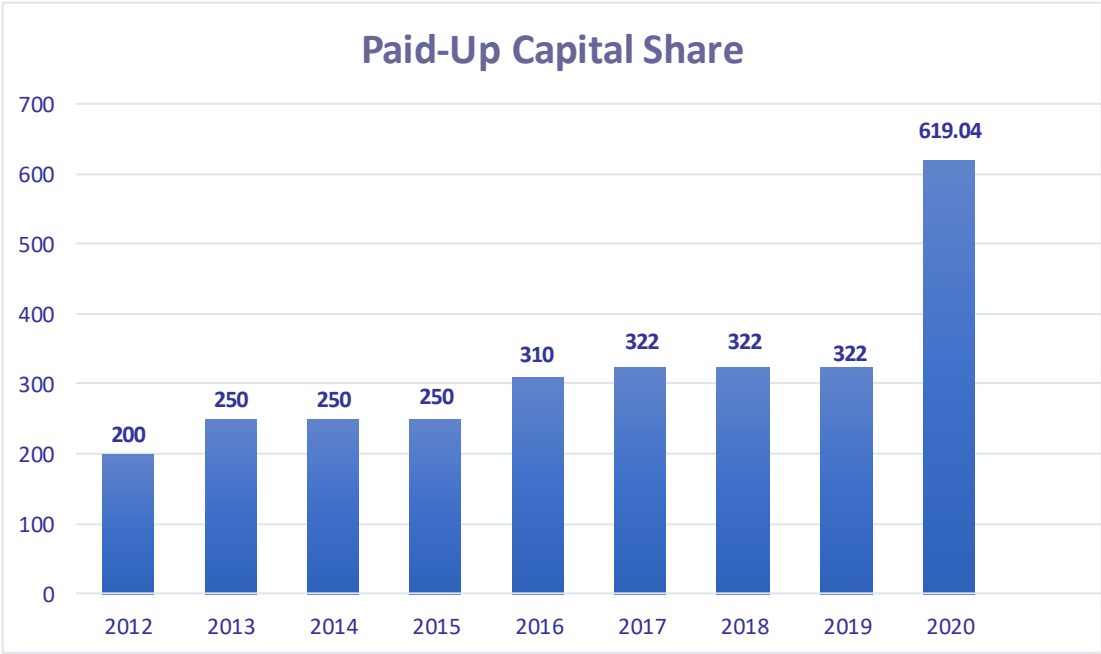

To complete the transition, Fortune Guarantee & Insurance Corporation re-branded itself in 2004, to what it is now known as Fortune General Insurance Corporation.

To date, FGen Insurance as it is popularly known, has breached the Billion mark in Total Assets, with Gross Premiums Written of P710.5m as at the close of 2020 and is eminently positioned to serve the needs of the Filipino today. Propelled by disciplined underwriting, the company has managed to maintain positive underwriting results over the last five years dating back to 2015, which it intends to maintain in the years ahead.

FINANCIAL HIGHLIGHTS

As you can see in the following graphs, Fortune General has demonstrated steady growth from 2012 until 2020, both in terms of gross and net premiums. We are also ahead of the curve, vis-à-vis the government's capital build-up program and our shareholders are committed to support this program to its conclusion.

TREATY REINSURERS

Fortune General is one of the handful remaining insurers who enjoy both a proportional and an excess of loss program. We continue to have as our partners the world's top-rated reinsurers who have been on our panel over the past decade.
